

## Opening Script

Thank you for agreeing to do this usability test for EventSphere, our app designed to create and enhance event-sharing experiences. The purpose of this test is to see how real users interact with our app so we can improve it based on your feedback.

We're testing the app, not you. There's no way to do anything wrong here, so please be honest and share your thoughts openly. Your feedback will help us identify issues and improve the app to better serve our users.

During the test, we'll ask you to complete a series of tasks while thinking out loud. If you have any questions, feel free to ask. If you'd like to stop the test at any point, just let us know.

## Background Questions

1. How familiar are you with using mobile applications to organize events or join communities?
2. Do you currently use any event or community-focused apps (e.g., Meetup, Eventbrite)? If so, which ones?
3. Before we begin, do you have any questions about this test?

## The Test

1. Open the EventSphere app and tell us your first impression of the homepage.
2. What stands out to you? Is it clear what the different elements are for?
3. Are you tempted to interact with any feature?

## General Tasks: (We'll cover as many as time allows.)

Create an Account: Go through the process of creating a new account. How easy or difficult was it?

Login to Your Account: Log in using the credentials provided. Does the process feel intuitive?

Create an Event: Create an event with the following details:

Title: "Pickup volleyball"

Location: "123 Main Street"

Date and Time: [Date and time of your choice]

Description: "Casual volleyball games."

What do you think about the event creation process?

Save an Event: Explore the events feed and save an event you're interested in. How easy is it to navigate and save events?

Customize Your Profile: Navigate to the profile page and update the following:

**Profile picture**

Bio: "Event enthusiast and community builder."

What did you think about the customization options?

Join a Community: Find and join a community that matches your interests.

What do you think of the community discovery process?

**Final Observations:**

1. Based on your experience, what did you like the most about EventSphere?
2. What areas do you think need improvement?
3. Would you consider using this app for creating or joining events in the future?

**Thanks**

Many thanks for your willingness to help us test EventSphere. The app is rather new, so we appreciate your help in fixing it up.

We'll contact you soon with a summary of what we found and how we hope to use it to improve the app. We'll keep the data from your individual session private and will only release aggregate data.
